

COAL PRODUCE VALUES REDUCE SEIZURE IS THREATENED

Secretary of the Interior Appeals To Their Patriotism Not To Take Unfair Profits Out of American People; Secretary Fort Warns Them Government Will Take Mines Unless Prices Are Reduced.

WASHINGTON, D. C., June 26.—Four hundred bituminous and anthracite coal operators gathered here to consider reduction of coal prices for the government and the public, joined in a demonstration of approval today when secretary of the interior Lane warned them that the sensible, patriotic and American thing to do was to put into the hands of some one or some small group the fixing of a low price, on coal.

Secretary Lane minced no words in telling the coal men they should be patriotic enough to forego profits for successful conduct of the war. "The success of the country in this great war," he said, "rests on you and you are responsible just the same as the soldiers in the trenches. Pershing in France, or the president in the white house. You control the fundamental industry. How much vision have you? Are you small or big? Are you petty politicians or statesmen?"

No Time for Exploitation.
"The country will not stand anything but a large policy from large men. There must be some new adjustment of the coal industry. When you say you and mine are going to the front is no time for you to reap an advantage, even when it comes under normal demands of trade. The life of the nation is at stake and there are greater things than making money."

Is there a man who will say to you: "You can send your boy to France while I stay here and coin his blood into dollars." To be an American citizen is not merely to make a million dollars, but it is to uphold the arm of the man who is to make the fight for his country."

Operators Fear Sherman Law.
C. M. Moderswell, a Chicago coal dealer, predicted a serious coal shortage at the head of the Great Lakes unless action is taken. He believed the fixing of an arbitrary price now

was undesirable. Fear of prosecution under the Sherman act prevented operators agreeing among themselves to bring down the price, he declared. Chairman Newlands expressed the opinion that the attorney general would not construe the Sherman law in that way.

Could Bring Down Prices.
"I think if the attorney general assured us the law would not be used against us we could bring down the price of coal very quickly," Mr. Moderswell replied. He added that the coal situation was in part caused by the fact that the mines operate only eight hours a day while a majority of industries are in operation 24 hours a day. Capacity of the mines is about 40 percent more than present production, but he doubted if they would be able to reach maximum production for lack of railroad transportation.

What is the average increase in the price of coal to the consumer? "It has been very large," he replied. "I would say it has been from 15 to 100 percent, but that is only an estimate."

Coal Operators Human.
"How do you justify the increase?" "Coal operators are just as human as anybody else and they have taken advantage of the conditions and the people."

Prices Must Come Down.
Commissioner Fort of the federal trade commission, warned the operators that it was certain the government would take over the mines unless they would something soon to lower prices.

Secretary Daniels said: "If the war goes on long, no man can say he owns a gallon of oil or a ton of coal; it must be commandeered for the United States."

Discontent of Stomach Is Feared By British Minister of Agriculture.
London, Eng., June 26.—Discontent of the stomach is more to be feared than discontent of the brain—that is why we value cooperation of American farmers.

This statement was made by R. E. Prothero, minister of agriculture, to The Associated Press today. "The outcome of the war," said Mr. Prothero, "may ultimately hang on the question of food supplies and the American farm is allotted to the essential part to play in the great struggle for freedom."

Replying to a question as to what the United Kingdom is doing in the way of food production, Mr. Prothero said that fully one-third of labor usually employed on land has been taken for war work.

Farmers Are Short Handed.
"Short handed" is the term used by hundreds of new difficulties, the farmers are doggedly struggling to increase grain production by half," continued the minister. "Gwynedd, of 13,000 women in England and Wales, old as young, drawn from every section of the country, are toiling on land, toiling hard and continuously. We have quadrupled our garden plots. After a hard day's work, men return to their homes to labor."

Workers Feel Need of Beer.
There has been no complaint concerning the bread shortage, but the wheat loaf, brewing has been reduced to minimum. This is a serious deprivation of men working at furnaces, in foundries and harvest fields. For generations they have been accustomed to beer and believe in the aid it gives them. It comes to be a part of their daily diet and they know of no other substitute to replace it. "We are contemplating a drastic reduction of our livestock, so more grain may be available for human food. These privations will have to be endured, but we do not fear such shortages as would mean starvation."

NO MORE CANNON SALUTES
TO BE FIRED DURING WAR
Washington, D. C., June 26.—Suspension during the war of all cannon salutes to visiting dignitaries at army posts, fortifications or encampments was ordered by the war department. Athletic contests, except interclass meets, have been suspended at West Point for the calendar year.

PASOGRAPH COMPANY OF EL PASO FILES CHARTER
Austin, Texas, June 26.—The charter of the Pasograph Co. Inc. of El Paso, was filed today in the state department. The capital stock is \$20,000. The purpose is to manufacture motion picture films and stories. The incorporators are: Nat. P. Wilson, Harris Walthall, James Keene and others of El Paso.

Disorders in City.
A Reuter dispatch from Athens says there was a demonstration in the city on Sunday night and that the allied troops entered the city to assist in the disorders.

CIVILIANS TO AD DEVASTATED AREAS

Americans, French and British Work to Restore Fields and Villages.

RICH INDIVIDUALS GIVE ASSISTANCE

35,000 Old Men and Women and Young Children Are Being Cared For.

RENCH FRONT, June 11.—(Correspondence of the A. P.)—American, French and British civilians are working in closest cooperation with the French military and civil authorities in restoring the lands devastated by the Germans when they hurriedly quit the lines they had held for two years from Noyon to the Somme. The Associated Press correspondent, after visiting Noyon, the adopted daughter of Washington, observed what was being done.

The American fund for French wounded has stepped aside from its original idea and taken full charge of the hamlet of Behreicourt, with its 125 remaining inhabitants.

The contesse de la Pallice has taken to herself the hamlet of Mautcourt, of which only heaps of bricks and stones remain, and will rebuild it.

Rothchild Successor Noyon.
Doctor baron Henri de Rothchild has opened a food and clothing depot at Noyon and sends everything necessary to any applicant in any part of the affected district.

All this, however, is but a drop in the ocean when it is realized that there are 243 villages and hamlets spread over the country which the Germans before their retreat tried to make into a desert. One hundred of these small communities are now just heaps of stones and bricks without one habitable room or cellar among them while the thousands of refugees were partly demolished and the rest only slightly.

35,000 Left Destitute.
In this region, 35,000 old men and women and young children under 15 years were left without shelter or food by the Germans. Some of these were deported immediately to the interior of France, where some of them joined relatives.

The military authorities have grappled in a masterly way with the worst problem which confronts them of providing for a large destitute community immediately behind the lines. They set to work to organize the country and its people. The first step was to provide food and this was done through the military commissariat, as there was no means of civilian transport of supplies from other parts of France.

Restore 250,000 Acres To Cultivation.
Then came the question of putting in cultivation again the 250,000 acres of agricultural land comprised in the zone. The devastated country was divided into 25 communes, each in charge of an officer with skilled aids. Horses were lent by the army, broken plows and harrows were repaired by mechanics of the army, seeds of all kinds were produced and work on the land was begun. For the first time since the war, the community self-sustaining.Tractors Are Put To Work.
Thirty American tractors were found lying in a depot far from the stricken district and these were transported to the places where they could be most useful and put to work. The labor was dangerous, owing to the presence of unexploded shells under the surface of the fields but only one accident has occurred from this cause.

In this way about 1000 acres have been plowed and sown, 2500 acres of grass and another 2500 acres ploughed and cleared of weeds while, with the help of American, British and French donors, every family has been provided with seeds and tools to form a stock, grain, and the result is an efficient producer in raised to make the community self-sustaining.

War At A Glance
GEN. PETAIN has resumed his dashing operations on the French front and today reports a brilliant success for his troops in a surprise attack northwest of Hurbise. The entire first line of the strong German position was carried and held against counter attacks. The Germans were badly cut up, besides losing more than 300 men in prisoners.

It is in this section that the most feasible route lies to the German fortress of Leun, the vital support of the whole German line on the French front. Last night's effort by the French seems to indicate that their chief command had no idea of letting the situation here slip from its grip under the tagline tactics recently adopted by von Hindenburg, who has been trying his best by thrusts here and there to wrest control of dominating positions from Petain's forces.

Promising Government.
The extent of the success of the program in Greece. Former premier Vassilios has arrived in Athens to proceed with the work of forming a cabinet, which king Alexander has summoned him and it is expected that his new government will be formed by Wednesday. Athens advises state.

The allies in the war is expected to be presented to the parliament soon after its convocation according to special dispatches.

FINLAND WON'T ADMIT 3000 FINNS FROM GERMANY
Petrograd, Russia, June 26.—The Russian Volla says 3000 Finnish volunteers who formerly served in the German army are expected to attempt to enter Finland shortly. The border guard has been increased and strict orders have been issued. The newspaper regards the release by Germany of 2000 fighters in view of the great need of human material as evidence of the suspicious character of this emigration.BULGARIANS ARE TREATING SERBIAN CLERGY BRUTALLY
Washington, D. C., June 26.—Mis-treatment of Serbian clergy by Bulgarians was reported today by the Serbian legation here. The legation said: "The Serbian bishops and clergy are being treated in a brutal way in the Serbian provinces under Bulgarian occupation. The Bulgarians are endeavoring their religion. Servants of the Serbian clergy is being expelled from the country."SERBIAN CABINET IS REORGANIZED; NEW MEMBERS
Washington, D. C., June 26.—Re-organization of the Serbian cabinet because of the resignation of some members was announced in advices received today by the Serbian legation here. Composition of the new cabinet is as follows:Prime minister of foreign affairs—Nicholas Pasich.
Minister of finance—Stoyan Protich.
Minister of interior—L. Jovanovitch.
Minister of justice—M. Djordjevitch.
Minister of agriculture—M. Ninitch.
Minister of war—Gen. R. Terzitch.Husband Gets Alimony Instead Of His Wife
Los Angeles, Calif., June 26.—The case was reversed when Judge Thomas ordered Mrs. Sarah Adams to pay her husband, Charles Adams, \$100 a month. The husband claimed that he had bought a hotel and turned it over to his wife. Mrs. Adams offered to give her husband \$100 a month, but his counsel objected with the protest that "no white man could live on that amount." The size of the alimony is as yet undetermined.3 British Naval Airmen Fight With 10 Germans; Bring Down 3 Machines
London, Eng., June 26.—Three British naval airmen fought a battle with ten German machines over the English coast. An official account of the fight says that probably three of the Germans were driven down.

The announcement follows: "In the course of a patrol Monday, three naval airmen encountered the machine of a German machine in the vicinity of Boulogne. They fought for 15 minutes and brought down one enemy in flames. It is believed two others were driven down, owing to control but clouds interrupted the view. Our machines returned safely."

U. S. DESTROYER IS UNABLE TO FIND 50 MEN OF LOST SHIP
Base of the American flotilla in British Waters, June 26.—One of the American destroyers in the patrol flotilla reported this morning that she was unable to find any trace of the 50 members of the crew of a British merchantman which was being attacked by a submarine when the Britisher's wireless distress call came from the air.

Submarine shelling us" was the first message the destroyer picked up. The position showed the Britisher was 50 miles away, which meant a 40-hour search through high seas for the destroyer.

The American craft was just getting under full speed when her wireless was suddenly second and final message. It read: "Abandoning ship."

Only floating wreckage greeted the American destroyer. The crew, they reached the scene, but they patrolled the vicinity for two hours in the hope of finding some survivors. The search to the high seas it was doubtful if any of the sunken vessel's crew were rescued by passing ships.—(By A. P.)

BRITISH TROOPS RAPIDLY CLOSING IN ABOUT LENS
British Headquarters in France, June 26.—The British are closing in about Lens. After the capture on Sunday of Humez and of many trenches west of the hill and the lines immediately south of Souchez, several positions have been occupied in this region near Lens. Patrols are advancing across the plains in an easterly direction.

Thus the great mining center is slowly being encircled. For weeks Lens has not been exploited economically by the Germans and now it is directly menaced by the military. (By A. P.)

Thirty American tractors were found lying in a depot far from the stricken district and these were transported to the places where they could be most useful and put to work. The labor was dangerous, owing to the presence of unexploded shells under the surface of the fields but only one accident has occurred from this cause.

In this way about 1000 acres have been plowed and sown, 2500 acres of grass and another 2500 acres ploughed and cleared of weeds while, with the help of American, British and French donors, every family has been provided with seeds and tools to form a stock, grain, and the result is an efficient producer in raised to make the community self-sustaining.
